## ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 431/86.

Exemption—St. Catharines Hydro-Electric  
Commission—STCA—C-1.

Made—July 17th, 1986.

Approved—July 17th, 1986.

Filed—July 23rd, 1986.

### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

#### EXEMPTION—ST. CATHARINES HYDRO-ELECTRIC COMMISSION—STCA—C-1

Having received a request from the St. Catharines Hydro-Electric Commission that an undertaking, namely:

to construct and operate a 6-MW hydroelectric generating station using the water flowing from Martindale Pond into Port Dalhousie Harbour for the generation of electricity for the City of St. Catharines

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The St. Catharines Hydro-Electric Commission and its customers will be interfered with if an environmental assessment is required

for a proposal which is a progressive step toward wise resource management by the development of a small-scale hydro facility with negligible adverse environmental impacts; and

B. Delay of the project will reduce and/or delay the following positive benefits created by the development:

- an economic savings of an inflation-free source of energy for the City of St. Catharines
- the employment opportunities created during construction of the facility and manufacturing of generating equipment
- the reduction in turbulence and corresponding benefit to recreational boating in the Harbour.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The proponent has prepared an Environmental Study Report, a copy of which is filed with the Environmental Assessment Branch of the Ministry and placed on the public records kept by the Branch at the Ministry's main office under section 31 of the Act, advising that the environmental effects of construction and operation of the proposed powerhouse will be limited and not adverse;
- B. The public and property owners have been made aware of the proposed development and any concerns raised have been satisfied;
- C. The proponent has initiated pre-submission consultation with the Ministry and various government agencies involved and will maintain this contact throughout the planning and construction stages.

This exemption is subject to the following terms and conditions:

1. This exemption shall expire if construction is not commenced by June 30, 1987.
2. If there is any claim that harbour navigation has been detrimentally affected, which claim cannot otherwise be resolved, then an independent arbitrator shall determine whether

or not in fact harbour navigation and docking of boats in the harbour area and more particularly Snug Harbour Marina has been detrimentally affected, and if it has been, the St. Catharines Hydro-Electric Commission will remedy the situation at its expense.

3. The hydro-electric generating station will be designed so noise levels produced during operation are as low as practicable and not above ambient levels.
4. To reduce noise and vibration problems associated with the construction phase of the project, the following control measures will be implemented:
  - (a) all the construction equipment will be well maintained;
  - (b) all appropriate construction equipment will be fitted with mufflers in good working order;
  - (c) special care shall be taken so that blasting noise and vibration are kept at a minimum level;
  - (d) a pre-blasting survey shall be conducted in surrounding residences.
5. Sediment and earth from the site will be disposed of in a manner, satisfactory to the Ministry of the Environment's West Central Region.
6. The planning, design and implementation process for the facility will be carried out according to the Environmental Study Report and recommendations contained therein and will be made known to the public and property owners in the area.
7. The proponent shall notify the Director of the Environmental Assessment Branch in writing by December 31, 1988 of how conditions 3, 4, 5 and 6 have been met. O. Reg. 431/86.

## ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 432/86.

Exemption—The Regional Municipality of Haldimand-Norfolk—RMHN-1.

Made—July 17th, 1986.

Approved—July 17th, 1986.

Filed—July 23rd, 1986.

## ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

### EXEMPTION—THE REGIONAL MUNICIPALITY OF HALDIMAND-NORFOLK—RMHN-1

Having received a request from The Regional Municipality of Haldimand-Norfolk (the "Region") that an undertaking, namely:

The expansion, as an interim measure, of the geographical area served by the Tom Howe Waste Disposal Site, situated on Lot 7, Concession 16, in the City of Nanticoke, in The Regional Municipality of Haldimand-Norfolk, formerly in the geographic Township of Walpole, County of Haldimand for the disposal of domestic, commercial and non-hazardous solid industrial waste

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Region will be subject to delay and expense if it is required to prepare an environmental assessment for the undertaking.
- B. Disposal at other existing Regional sites would result in a significant decrease in capacity and cause the sites to be closed without sufficient time for the Region to establish a long-term waste management program.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The undertaking is clearly an interim measure for which there is no other reasonable waste management alternative available within the necessary time frame.
- B. The proposal to increase the volume of waste deposited at the Tom Howe Waste Disposal Site is not a major undertaking and will not have a significant effect on the environment, as it is defined in the *Environmental Assessment Act*, including adjacent persons or property.

- C. The expansion of the site's service area to accept the additional waste volume will require that a hearing be held and an approval be issued under Part V of the *Environmental Protection Act*.
- D. As part of the process in obtaining an amended Certificate, the Region has made provision in its Consultant's Terms of Reference for a public meeting to be convened.
- E. The Region is presently conducting a long-term waste management study in accordance with the *Environmental Assessment Act*.

This exemption is subject to the following terms and conditions:

1. No waste shall be deposited at the Tom Howe Waste Disposal Site pursuant to this order more than five years after the date of the Provisional Certificate of Approval or Certificate of Approval which is issued under Part V of the *Environmental Protection Act* for purposes of this order.
2. Condition 1 does not prevent the continued use of the Tom Howe Waste Disposal Site for waste from the area it was certified to serve prior to the issuance of the March 1, 1985 Emergency Certificate of Approval under section 31 of the *Environmental Protection Act*.
3. The Region notify the Springvale Concerned Citizens Group and the Mississaugas of New Credit within one week of any application submitted to the Ministry of the Environment under Part V of the *Environmental Protection Act* for the interim expansion of the Site's service area.
4. The Region continue to vigorously pursue a long-term waste management program in accordance with the *Environmental Assessment Act* within the five-year interim period.
5. The Region provide the Springvale Citizens Group and the Mississaugas of New Credit with a copy of all study reports, including test results from surface and ground water samples that relate to the application submitted to the Ministry of the Environment under Part V of the *Environmental Protection Act* for continued operation of the Tom Howe Site.
6. The Region notify in writing the Director, Environmental Assessment Branch, Ministry of the Environment, of how the Region is complying with Conditions 2 and 4 within one month of submitting the application for a Certificate of Approval under Part V of the

*Environmental Protection Act*. O. Reg. 432/86.

## ENVIRONMENTAL ASSESSMENT ACT

Exemption—Counties of Frontenac and Lennox and Addington.

Made—July 17th, 1986.

Approved—July 17th, 1986.

Filed—July 23rd, 1986.

### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

#### EXEMPTION—COUNTIES OF FRONTENAC AND LENNOX AND ADDINGTON

Having received a request from The Corporation of the County of Frontenac and The Corporation of the County of Lennox and Addington that an undertaking, namely:

The construction and operation of the extension of Coronation Boulevard in the Community of Amherstview to Taylor-Kidd Boulevard in the Community of Collins Bay

be exempt from the application of the Act pursuant to section 29; and

Having been advised by The Corporation of the County of Frontenac Roads Department that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. Travel by the residents between the communities of Amherstview and Collins Bay will be impaired since the only highway between the two (Highway 33) is scheduled for reconstruction by the Ministry of Transportation and Communications and the reconstruction would be delayed if the Coronation Boulevard alternative route is not in place; and
- B. The Counties of Frontenac and Lennox and Addington and the public who rely on the use of Highway 33 will be unduly interfered with if an environmental assessment is required for a project that is not going to have significant adverse environmental impacts.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation

and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The proponents have advised that the affected land owners have agreed to make available the necessary lands for the undertaking and are satisfied with the compensation offered by the proponent; and
- B. The proponent advises that no significant long term adverse environmental impacts are anticipated but only short term impacts associated with construction and those impacts will be mitigated as set out in the terms and conditions of this Order.

This exemption is subject to the following terms and conditions:

1. Construction practices shall comply with the Ministry of the Environment publication "Evaluating Construction Activities Impacting on Water Resources" and in particular "Guidelines for Construction of Highways and Bridges, March 19, 1984", a copy of which can be obtained by contacting the Ministry's Kingston Regional Office.
2. The proponent shall contact the staff of the Napanee District Office, Ministry of Natural Resources, prior to construction for their requirements for maintaining wetland water levels and construction shall be carried out in accordance with such requirements.
3. The proponent shall include in the contract for the project a provision that landfilling beyond the road allowance shall be prohibited unless prior permission is obtained from the Ministry of Natural Resources office mentioned above and construction shall be carried out accordingly.
4. The proponent shall contact staff of the Cataraqui Region Conservation Authority who will determine those periods of time during the year when construction may occur in the swampy portion of the area known as Queen's Acres and construction in those areas shall not proceed except during the periods indicated.
5. The proponent shall advise the Director of the Environmental Assessment Branch in writing:

- (a) within fourteen days of the commencement of construction, the date

on which construction commenced; and

- (b) within sixty days of the completion of construction, how the first four conditions of this Order were met.

6. This Order shall expire if construction has not commenced by October 30, 1986.

Exemption—Kanata Hydro-Electric

Commission—KANAC-1.

Made—August 13th, 1986.

Approved—August 13th, 1986.

Filed—August 20th, 1986.

### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

#### EXEMPTION—KANATA HYDRO-ELECTRIC COMMISSION—KANAC-1

Having received a request from the Kanata Hydro-Electric Commission that an undertaking, namely:

the activities of planning, designing, constructing, operating and maintaining the Marchwood electrical transformer substation to transform current from 115 kV to 27.6 kV, on lands to be leased by the Kanata Hydro-Electric Commission from Ontario Hydro and being Part of Lot 7, Concession 3, in the City of Kanata,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Kanata Hydro-Electric Commission that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The public will be interfered with and damaged because the level of service available from the proponent will not meet anticipated demands if the facility is not in service in the near future; and
- B. The proponent and its customers will be damaged and interfered with by being required to prepare an environmental assessment for an undertaking which will have only minimal adverse effect on the environment.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The proponent has advised that the environmental effects of the construction and operation of the transformer station are expected to be very limited and not adverse; and
- B. The public and government agencies have been made aware of the undertaking and the proponent advises that there have been no concerns raised.

This exemption is subject to the following terms and conditions:

1. ## ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 493/86.

Exemption—Ministry of Government  
Services—MGS-71.

Made—August 13th, 1986.

Approved—August 13th, 1986.

Filed—August 20th, 1986.

### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

#### EXEMPTION—MINISTRY OF GOVERNMENT SERVICES—MGS-71

Having received a request from the Ministry of Government Services that an undertaking, namely:

The activities of the Ontario Land Corporation and those activities of the Ministry of Government Services on behalf of the Ontario Land Corporation,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Crown will be interfered with and damaged by loss of revenues that would result from the disposal of real property at less than the maximum price obtainable.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. This Order is a temporary measure to allow the Minister of Government Services the time to develop a system whereby the activities of the Ontario Land Corporation will be brought into compliance with the Act and in

the interim this work would be unduly hampered by the immediate application of the Environmental Assessment legislation.

- B. The change in the permitted use of land will be controlled and governed by the approval procedures under the *Planning Act, 1983* which procedures include provisions for considering environmental concerns, and the application of the Act would, therefore, cause undue interference under the Ontario Land Corporation program.

This exemption is subject to the following terms and conditions:

1. Where any activity, which otherwise would be exempt under this Order, is being carried out as or is part of, an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this Order.
2. Where any activity, which is the subject of this Order, is being carried out as or is part of, another undertaking which is the subject of an Exemption Order under the Act, the activity exempt under this Order shall be carried out in accordance with any terms or conditions in the other Exemption Order as well as the conditions in this Order.
3. This Order will cease to apply after March 31, 1987 except to those activities for which tenders have been let. O. Reg. 493/86.

Exemption—The Corporation of the Township of Dysart *et al.*—DYSA-TWP-1.

Made—August 13th, 1986.

Approved—August 13th, 1986.

Filed—August 20th, 1986.

### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

#### EXEMPTION—THE CORPORATION OF THE TOWNSHIP OF DYSART *ET* *AL.*—DYSA-TWP-1

Having received a request from The Corporation of the Township of Dysart, Bruton, Clyde, Dudley,

Eyre, Guilford, Harburn, Harcourt and Havelock that an undertaking, namely:

The activity of realigning and reconstructing approximately 4.0 kilometres of Development Road #1393 (Peterson Road) from the County line of Haliburton and Hastings Counties westerly to Haliburton County Road #10,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by The Corporation of the Township of Dysart *et al.* that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The safety of the public who use the Peterson Road will be adversely affected if the major deficiencies in the current road design are not corrected in the near future.
- B. The Corporation of the Township of Dysart *et al.*, and the public will be interfered with if an environmental assessment is required for a project that will not have adverse impacts on the environment.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The proponent advises that no significant adverse environmental impacts are anticipated, and that any impacts are likely to be associated with the construction period only, and those impacts are expected to be limited and mitigated accordingly.
- B. The project will benefit the public and the local economy of the neighbouring communities by providing a safe roadway.

This exemption is subject to the following terms and conditions:

1. Construction practices shall comply with the Ministry of the Environment publication *Evaluating Construction Activities Impacting on Water Resources* and in particular "Guidelines for Construction of Highways and Bridges, March 19, 1984", a copy of which can be obtained by contacting the Ministry's Central Regional Office.

2. The proponent shall include in the contract for the project a provision for general noise control measures and in the event these measures do not adequately mitigate issues for complaint the contractor shall comply with the sound level criteria for construction equipment contained in the Ministry of the Environment publication *Model Municipal Noise Control By-Law, Final Report, August, 1978*, a copy of which can be obtained by contacting the Ministry office mentioned in condition #1.
3. The proponent shall contact staff of the Ministry's Central Region, upon completion of the final design and before commencing construction to obtain verification, in writing, that the construction practices in condition #1 have been met in the final design.
4. Before commencing construction the proponent shall send a copy of the written verification required by condition #3 along with written notice of the date construction will commence to the Director of the Environmental Assessment Branch of the Ministry of the Environment for filing with the public records kept under section 31 of the Act by the Branch at the Ministry's main office located at 135 St. Clair Avenue West, Toronto, Ontario M4V 1P5. ### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

#### EXEMPTION—MINISTRY OF GOVERNMENT SERVICES—MGS-70

Having received a request from the Ministry of Government Services that an undertaking, namely:

The activities of the Ontario Mortgage Corporation and those activities of the Ministry of Government Services on behalf of the Ontario Mortgage Corporation,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Crown will be interfered with and damaged by the undue delay and expense required to prepare environmental assessments for activities that have no significant adverse environmental effects.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The undertaking is primarily related to providing finances to others for activities which are not subject to the Act and have been carried on pursuant to an existing exemption, the effect of which is ending due to a reorganization of the structure of Government so that the Ministry of Government Services will be carrying out activities on behalf of the Ontario Mortgage Corporation.
- B. The undertaking will not have any significant adverse environmental effects and, therefore, the interference with various Provincial programs which would be caused by the application of the Act would be undue.

This exemption is subject to the following terms and conditions:

1. Where any activity, which otherwise would be exempt under this Order, is being carried out as or is part of, an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this Order.
2. Where any activity, which is the subject of this Order, is being carried out as or is part of, another undertaking which is the subject of an Exemption Order under the Act, the activity exempt under this Order shall be carried out in accordance with any terms or conditions in the other Exemption Order as well as the conditions in this Order.
3. This Order does not permit Ontario Mortgage Corporation to develop property other than providing financing to others,

and, if necessary enforcing any security with such financing. O. Reg. 495/86.

## ENVIRONMENTAL ASSESSMENT ACT

Exemption—The Regional Municipality of Niagara—NIAG-RG-1.

Made—August 13th, 1986.

Approved—August 13th, 1986.

Filed—August 20th, 1986.

### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

#### EXEMPTION—THE REGIONAL MUNICIPALITY OF NIAGARA—NIAG-RG-1

Having received a request from The Regional Municipality of Niagara that an undertaking, namely:

The construction and operation of the modified Welland water treatment plant expansion for which an environmental assessment has been accepted and a conditional approval to proceed dated October 23, 1978 was issued by the Minister of the Environment,

be exempt from the application of the Act pursuant to section 29 by extending the time provided for the connection of the plant to a sewage works from that provided for in Exemption Order MOE-17 which was approved by O.C. No. 2801/79 which was published in *The Ontario Gazette* on the 10th day of November, 1979; and

Having been advised by the Ministry of the Environment that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. If the water treatment plant were shut down in order to avoid a continued violation of the *Environmental Assessment Act* by The Regional Municipality of Niagara, the Regional Municipality and the persons who presently receive water from the plant would be unduly interfered with by being deprived of a needed source of potable water.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking continue to be exempt from the application of the Act for the following reasons:

- A. The Regional Municipality of Niagara which is responsible for financing the costs of the project has indicated that funding is now available to complete the undertaking;
- B. The environmental impacts associated with the completion of the construction of the project will be minor and the community will benefit from improved water quality resulting from the end of the need to discharge untreated backwash water,

And that Condition 2 of Exemption Order MOE-17 be revoked and replaced with the following:

2. A construction tender for the sewer to convey backwash water to the Welland sewage works is to be called no later than October 15, 1986.
3. The water treatment plant shall be connected by sanitary sewer to the sewage works no later than September 1, 1987.

5. This Order shall expire on December 31, 1986 if construction of the project has not commenced. O. Reg. 496/86.

#### PLAN

1. The title of this plan is the "Ontario Crop Insurance Plan—Onions".

2. The purpose of this plan is to provide for insurance against a loss in the production of onions resulting from one or more of the perils designated in section 4.

3. In this plan,

"average farm yield" means the average of previous yields of the planted acreage computed on the basis of acreage production records of the insured person or on such other basis as is reasonable in the circumstances;

"bag" means fifty pounds; and

"onions" means onions grown from seed, onions grown from sets or spanish onions.

#### DESIGNATION OF PERILS

4.—(1) Subject to subsections (2) and (3), the following are designated as perils for the purposes of this plan:

1. Drought.
2. Excessive rainfall.
3. Flood.
4. Frost.
5. Hail.
6. Insect infestation.
7. Plant disease.
8. Wildlife.
9. Wind.

(2) This plan does not insure against a loss in the production of spanish onions in a crop year resulting from drought.

(3) This plan does not insure against a loss in the production of onions in a crop year resulting from insect infestation or plant disease unless the insured person establishes that a recommended control program was followed during the crop year.

5. The crop year for onions is the period from the 1st day of March in any year to the 31st day of October next following.

## CONTRACT OF INSURANCE

6.—(1) For the purposes of this plan, the entire contract of insurance for onions is comprised of,

- (a) the contract of insurance in the form prescribed by Regulation 231 of Revised Regulations of Ontario, 1980;
- (b) the application for insurance;
- (c) an endorsement for onions in Form 1;
- (d) the final acreage report for each crop year; and
- (e) any amendment to a document referred to in clause (b) or (d) agreed upon in writing.

(2) In the event of a conflict between the provisions referred to in clauses (1) (a) and (c), the provisions referred to in clause (1) (c) prevail.

7.—(1) An application for insurance shall,

- (a) be in a form provided by the Commission;
- (b) be accompanied by a minimum premium deposit of \$100 for each crop in respect of which insurance is applied for; and
- (c) be filed with the Commission,
  - (i) not later than the 1st day of April, or
  - (ii) in the case of onions grown from seed to be planted east of King's Highway No. 6, not later than the 15th day of April,

in the crop year in respect of which it is made.

(2) Premium deposits prescribed by clause (1) (b) are not refundable unless no acreage is planted to the crop.

## DURATION OF CONTRACT

8.—(1) A contract of insurance is in force for the crop year in respect of which it is made, and continues in force for each crop year thereafter until cancelled by the insured person or the Commission in the manner prescribed by subsection (2) or terminated in accordance with the regulations.

(2) A contract of insurance may be cancelled by the insured person or the Commission by notice in writing to the other party on or before the 1st day of April in the crop year during which the cancellation is to be effective.

## COVERAGE

9.—(1) Subject to subsections (2), (3) and (4), the coverage provided under a contract of insurance is 70 per cent of the average farm yield in bags of the total

acreage planted to the crop by the insured person in accordance with the regulations.

(2) The coverage provided under subsection (1) shall be increased following each consecutive no claim year as follows:

- 1. Following the first no claim year to 73 per cent of the average farm yield.
- 2. Following the second no claim year to 76 per cent of the average farm yield.
- 3. Following the third no claim year to 78 per cent of the average farm yield.
- 4. Following the fourth no claim year to a maximum of 80 per cent of the average farm yield.

(3) The coverage provided under subsections (1) and (2) shall be decreased for claim years from the insured level in reverse progression to that prescribed by subsection (2) except, where a claim occurs in a year where the coverage is 70 per cent, the coverage shall be reduced to 65 per cent.

(4) Where, in any year, a claim is paid in an amount less than one-half the total premium for that year, the coverage for the following year remains unchanged.

(5) The number of bags determined under subsections (1), (2) and (3) constitutes the total guaranteed production under a contract of insurance.

10. For the purposes of this plan, the established price for,

- (a) onions grown from seed is \$2.75 per bag;
- (b) onions grown from sets is \$3.50 per bag; and
- (c) spanish onions is \$4.50 per bag.

## PREMIUMS

11.—(1) The total premium for,

- (a) onions grown from seed is \$130 per acre;
- (b) onions grown from sets is \$100 per acre; and
- (c) spanish onions is \$250 per acre.

(2) Notwithstanding subsection (1), the minimum premium payable by an insured person in each crop year is \$100 for each crop.

(3) The premium prescribed by subsection (1) includes payments in respect of premiums made by the Government of Canada under the *Crop Insurance Act* (Canada).

12.—(1) Where a contract of insurance is in force, a premium shall be paid in respect of each crop year in which the insured person plants acreage to onions.

(2) Where a premium is payable in respect of a crop year, the insured person shall pay the premium, less the premium deposit prescribed by subsection (3), to the Commission at the time the final acreage report prescribed by section 13 is filed.

(3) Where a renewal premium is payable in respect of a crop year, the insured person shall, not later than the 1st day of April in the crop year, pay a premium deposit in accordance with clause 7 (1) (b).

#### FINAL ACREAGE REPORT

13.—(1) Every insured person shall file with the Commission in each crop year a final acreage report in a form provided by the Commission as soon as the planting of acreage to the crop is completed.

(2) A final acreage report filed with the Commission shall not be amended without the written consent of the Commission.

14.—(1) When the final acreage report is inaccurate, the Commission may correct it and adjust the premium accordingly and, in such case, shall notify the insured person in writing forthwith of the correction and the reason therefor.

(2) The insured person shall be deemed to have agreed with the correction of the final acreage report and adjustment of premium made under subsection (1) unless, within ten days after the mailing or delivery of the notification by the Commission, that person notifies the Commission in writing that the correction is not acceptable.

(3) Upon notice that a correction is not acceptable being given, the contract of insurance ceases to apply for the crop year in respect of which the final acreage report was filed.

(4) A final acreage report revised under this section shall, failing notice under subsection (2), constitute the final acreage report for the crop year.

15.—(1) Where an insured person in any crop year fails to file a final acreage report in the form and manner prescribed by this Regulation, the Commission may,

- (a) prepare the final acreage report; or
- (b) declare the insured acreage to be nil.

(2) Where the Commission prepares a final acreage report under subsection (1), the Commission shall mail or deliver a copy of the report to the insured person.

(3) Every insured person shall pay the premium for the crop year in respect of which a final acreage report

is prepared by the Commission within ten days after the mailing or delivery to that person of a copy of the report.

- (c) spanish onions is the 20th day of May,

or such other dates as are reasonably warranted in the circumstances.

#### FINAL DATE FOR HARVESTING

17. For the purposes of this plan, in any particular crop year the final date for harvesting,

- (a) onions grown from seed or spanish onions is the 31st day of October; and
- (b) onions grown from sets is the 15th day of August,

or such other dates as are reasonably warranted in the circumstances. O. Reg. 541/86, Sched.

### Form 1

#### *Crop Insurance Act (Ontario)*

#### ONION ENDORSEMENT

WHEREAS the insured person has applied for crop insurance under the Ontario Crop Insurance Plan for Onions, hereinafter referred to as "the plan", and has paid the deposit premium prescribed thereunder;

NOW THEREFORE, subject to the *Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover onions.

#### HARVESTING OF PLANTED ACREAGE

1. All acreage planted to onions in a crop year shall be harvested unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the planted acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

## EVALUATION OF LOSS

## 2.—(1) Where,

- (a) all the acres intended to be planted to spring grown crops are offered for insurance;
- (b) the insured person so elects on the application for insurance and pays the premium deposit required by the regulations for each spring grown crop intended to be planted; and
- (c) the planting,

- (i) in the case of systematically tile drained land, of three acres or more, or

- (ii) in the case of land that is not systematically tile drained, of six acres or more,

is prevented by one or more of the designated perils,

an indemnity shall be paid,

- (d) in the case of systematically tile drained land, for each acre; or
- (e) in the case of land that is not systematically tile drained, for each acre in excess of three,

that remains unplanted, the amount of which shall be equal to one-third of the guaranteed production per acre of the crop highest in priority on the list in the Table to this Regulation of those intended to be planted and insured by the insured person multiplied by the established price applicable to that crop.

(2) This paragraph does not apply to and no indemnity is payable in respect of land,

- (a) that is orchard land, pasture, woodland, seeded to a perennial crop, fall sown or intended for summer fallow;
- (b) that is untilled and was not cropped in the previous year; or
- (c) that, in the opinion of the Commission, is not insurable.

(3) Where the planting is prevented by excessive rainfall, no indemnity is payable unless the insured person establishes that,

- (a) an abnormal amount of rain occurred;
- (b) the rainfall resulted in a reduced number of work days; and
- (c) a significant number of other insured persons were similarly affected,

during the planting season in the area where the insured acreage is situate.

3.—(1) Where loss or damage to one acre or more of the insured crop resulting from an insured peril occurs prior to the final date for planting in the crop year, the Commission, upon application therefor in writing by the insured person, may consent in writing to the replanting of the damaged acreage.

(2) Where the damaged acreage is replanted to the insured crop in accordance with subparagraph (1), the Commission shall pay an indemnity for each acre replanted,

- (a) in the case of onions grown from seed, of \$350;

- (b) in the case of onions grown from sets, of \$380; and

- (c) in the case of spanish onions, of \$500 where 44,000 or more plants are replanted per acre or that portion of \$500 that the number of plants replanted bears to 44,000 where fewer than 44,000 plants are replanted per acre,

and the contract of insurance continues to apply to such acreage.

(3) The total number of acres of a crop in respect of which a replanting benefit is paid in a crop year shall not in any case exceed the total number of insured acres planted to that crop.

4.—(1) Where loss or damage occurs prior to harvest, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and in such case shall determine the number of damaged acres and the potential production thereof.

(2) Where damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph (1), the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production for the damaged acreage and the potential production for the damaged acreage determined under subparagraph (1) by the established price per bag for that crop.

(3) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under paragraph (2) shall not be taken into account in the final adjustment of loss.

(4) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into

account in the final adjustment of loss in respect of the total seeded acreage of a crop shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per bag for that crop.

NOTICE OF LOSS OR DAMAGE

5. Where loss or damage to an insured crop occurs and the damage was occasioned at a readily ascertainable time, the insured person shall notify the Commission forthwith by telephone and shall confirm in writing within twenty-four hours after that time.

FINAL ADJUSTMENT OF LOSS FOR  
TOTAL PLANTED ACREAGE

6.—(1) The indemnity payable with respect to the total planted acreage of a crop in the final adjustment of loss is the sum of the losses calculated under paragraphs 2, 3 and 4 applicable to the acreage but, subject to subparagraph (2), where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of the acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per bag.

(2) Notwithstanding subparagraph (1), no indemnity paid under paragraphs 2 and 3 is subject to reduction under this paragraph.

(3) In no case shall indemnity be paid for acreage in excess of the total insured acreage of a crop.

(4) Where, as the result of an insured peril, the quality of a crop is reduced, the actual production of any onions sold at a grade below Canada No. 1 shall be deemed to be reduced by 60 per cent.

DAMAGE AFTER HARVEST

7.—(1) No indemnity is payable in respect of any loss or damage suffered by the insured crop after harvest and, subject to subparagraph (2), no indemnity is payable with respect to onions in storage.

(2) Where an insured crop damaged by an insured peril prior to harvest is placed in storage, the Commission shall thereupon adjust the loss and pay an indemnity therefor if,

- (a) notice of damage was received and inspection was made by the Commission before harvest; and

- (b) the damaged onions are clearly indentified in storage.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

8.—(1) Where the actual acreage of a crop in a crop year is less than the planted acreage declared on the final report for that crop, the total guaranteed production and the amount of insurance shall be reduced proportionately and there shall be no refund of premium.

(2) Where the actual planted acreage of a crop in a crop year exceeds the planted acreage declared on the final acreage report, the production from the total planted acreage shall be counted and there shall be no increase in the total guaranteed production or the maximum amount of indemnity payable.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

# Occupational Health and Safety Act

September 27, 1986

MINISTRY OF LABOUR

NOTICE OF PROPOSED REGULATION

RESPECTING FUMES AND GASES IN WELDING

AND CUTTING OPERATIONS

Notice is hereby given of the following proposed regulation relating to the designation of fumes and gases in welding and cutting operations under section 22(b) of the Occupational Health and Safety Act, R.S.O. 1980, c. 321 (the Act).

The government is committed to an open and consultative process for the development of designated substance regulations on the basis that this is more likely to result in quality regulations which are more understandable and acceptable to the affected parties. In order to ensure the most expeditious development of this regulation, dates have been specified in the next paragraph when certain steps in the process are expected to take place. These dates will be adhered to.

All comments that are received in response to this Notice will be analyzed and any proposed amendments arising from these comments will be presented at a public meeting to take place not later than June 1987, for review and further comment. The comments will be analyzed and the regulation may be further revised. It is intended that the regulation will be transmitted to the Advisory Council on Occupational Health and Occupational Safety not later than November 1987.

The Ministry welcomes comments on all aspects of the proposed regulation. It wishes to receive information and comments on the following issues in particular:

- the feasibility and appropriateness of the proposed strategy as presented in the proposed regulation for the control of fumes and gases in welding and cutting operations;
- the suitability of the classification system in the proposed regulation;
- the feasibility and suitability of the required controls in the proposed regulation;
- the feasibility and appropriateness of requiring air monitoring only in the case of disputes regarding the adequacy of controls stipulated in the proposed regulation;
- the appropriateness of adopting as exposure values the threshold limit values (TLVs) published by the American Conference of Governmental

Industrial Hygienists (ACGIH) except for those substances controlled under designated substance regulations. For the latter substances the exposure values would be those published in the regulations; and

- the appropriateness of excluding brazing and soldering operations from the regulation.

Additional background information is available for review during business hours in the Ministry of Labour Library at 400 University Avenue, 10th Floor, Toronto, Ontario, and district offices of the Ministry. If these hours are not convenient, please contact Dr. Shal Gewurtz at the number below.

Comments on the proposed regulation or any particular sections therein must be submitted by January 2, 1987, to:

Designated Substances Project  
Program Development Unit  
Ministry of Labour, 9th Floor  
400 University Avenue  
Toronto, Ontario  
M7A 1T7

Comments received will be made available for public examination after the close of the public comment period.

For further information, contact Dr. Shal Gewurtz, Toronto (416) 965-8710.

addition to those mentioned in section 5 shall apply:

(1) local exhaust ventilation shall be provided which will give a minimum capture velocity of 0.75 metres per second at each source.

#### Additional Controls – Type 3 Operations

8. Where the operation is classified as Type 3, the following measures and procedures in addition to those mentioned in section 5 shall apply:

(1) local exhaust ventilation shall be provided which will give a minimum capture velocity of 0.75 metres per second at each source; and

(2) a supplied air positive pressure respirator or a self-contained breathing apparatus with full facepiece operated in pressure demand mode shall be provided by the employer and used by the worker.

9. (1) Where local exhaust ventilation is provided, the employer shall ensure that the capture velocity of the local exhaust ventilation is tested by a competent person on a regular basis.

(2) Subject to subsection (3), where the results of the air sampling establish that the exposure of the worker to a constituent of the fumes and gases exceeds the exposure value for a constituent of the fumes and gases set out in "TLVs Threshold Limit Values for Chemical Substances in the Work Environment Adopted by ACGIH with Intended Changes for 1986-87", of the American Conference of Governmental Industrial Hygienists, the employer shall take additional measures and procedures by means of engineering controls and work practices to ensure that the exposure of the worker does not exceed such value.

(3) For the purposes of subsections (1) and (2), where the constituent of the fumes and gases to which a worker is exposed is,

(a) prescribed as a designated substance, an exposure limit set out in the designated substance regulation shall apply; and

(2) Nothing in subsection (1) applies so as to affect the power of an inspector to issue an order for a contravention of this Regulation.

12. (1) Where the strict duty imposed by section 5, 6, 7 or 10 cannot be complied with because,

- (a) an emergency exists; or
- (b) the measures and procedures necessary to control the exposure of a worker to fumes and gases,
  - (i) do not exist or are not available,
  - (ii) are not reasonable or practical for the length of time or frequency of exposure or the

nature of the process, operation or work, or

- (iii) are not effective because of a temporary breakdown of equipment,

the employer shall provide a worker with respiratory equipment which shall be used by the worker.

(2) Where a worker is exposed to fumes and gases, the worker may request a respirator regardless of the type of operation or level of exposure and the employer shall provide it.

  - (b) the employer believes that the worker has inhaled, ingested or absorbed fumes and gases and the worker's health is likely to be affected thereby and the employer has so notified the worker; or
  - (c) the Chief Physician so requires,
- the worker, subject to subsection (2), shall at the expense of the employer undergo medical examinations and clinical tests to determine whether the worker has an occupational illness because of the inhalation, ingestion or absorption of fumes and gases

and whether the worker is fit, fit with limitations or unfit to continue working in exposure to fumes and gases.

(2) A notice under clause (1) (a) or (b) shall be in writing and a notice under clause (1) (b) shall notify the worker that the worker may dispute whether he or she must undergo medical examinations and clinical tests by giving notice of the dispute to an inspector.

(3) Where a dispute arises between an employer and a worker under clause (1) (a) or (1) (b) as to whether a worker must undergo medical examinations or clinical tests, the employer or the worker may notify an inspector thereof who shall cause an investigation to be made and give a decision in writing to the employer and the worker.

(4) The employer shall provide the physician who examines the worker or under whose supervision clinical tests are performed with a copy of the records, if any, of the exposure of the worker to fumes and gases.

14. (1) A physician conducting a medical examination or clinical tests under section 13 shall advise the employer, who shall act thereon, and the worker whether the worker is fit or because of a condition resulting from exposure to fumes and gases, is fit with limitations or unfit to continue working in exposure to fumes and gases without giving or disclosing to the employer the records or results of the examination or tests.

(2) Where a worker is removed from exposure to fumes and gases in welding and cutting operations because a medical examination or clinical test under section 13 discloses that the worker may have or has a condition resulting from exposure to fumes and gases and suffers a loss of earnings occasioned thereby, the worker is entitled to compensation for the loss in the manner and to the extent provided by the Workers' Compensation Act.

(3) Upon advising the employer and the worker that a worker, because of a condition resulting from exposure to fumes and gases, is fit with limitations or unfit to continue working in exposure to fumes and gases, the physician shall advise in writing upon a confidential basis the joint health and safety committee thereof and in giving such advice shall indicate his or her opinion as to the interpretation to be placed thereon.

(4) Where the physician advises the employer that a worker, because of a condition resulting from exposure to fumes and gases, is fit with limitations or is unfit to continue working in exposure to fumes and gases, the physician shall forthwith communicate the advice to the Chief Physician, Occupational Health Medical Service of the Ministry.

15. For the purposes of this Regulation, upon the application of an employer in writing to the Director, the measures and procedures that are to be carried out or used may vary from those prescribed in this Regulation where,

(a) the employer establishes that the variation affords adequate protection for a worker or exceeds the factors of accuracy and precision required in the Regulation; and

(b) approval for the variance is obtained from the Director in writing before the measures and procedures as varied are carried out or used.

16. Where a provision in a regulation made under the Act conflicts with this Regulation, this Regulation applies and prevails.

17. (1) This Regulation, except sections 4 to 16, comes into force on the day this Regulation is filed with the Registrar of Regulations.

(2) Sections 4 to 16 come into force ninety days after the day this Regulation is filed with the Registrar of Regulations.

SCHEDULE 1

The time-weighted average exposure of a worker to fumes and gases and to the constituents of such fumes and gases shall be calculated for an 8-hour day and a 40-hour week as follows:

1. The average concentrations of fumes and gases and the constituents of such fumes and gases to which a worker is exposed shall be determined from analyses of air samples taken as being representative of the exposure of the worker to fumes and gases and to the constituents of such fumes and gases during work operations.
2. The results of the analyses are the concentrations of fumes and gases and the constituents of such fumes and gases expressed in milligrams per cubic metre.
3. The concentrations shall be multiplied by the time in hours to which the work is taken to be exposed to such concentrations.
4. The daily exposure shall be calculated as follows:
5. The daily time-weighted average exposure shall be calculated by dividing the cumulative daily exposure by 8.
6. The weekly exposure shall be calculated as follows:
7. The weekly time-weighted average exposure shall be calculated by dividing the cumulative weekly exposure by 40.

$C_1T_1 + C_2T_2 + \dots + C_nT_n =$  cumulative weekly exposure, where  $C_1$  is the concentration found in an air sample and  $T_1$  is the total time in hours to which the worker is taken to be exposed to concentration  $C_1$  in a week.

$C_1T_1 + C_2T_2 + \dots + C_nT_n =$  cumulative daily exposure, where  $C_1$  is the concentration found in an air sample and  $T_1$  is the total time in hours to which the worker is taken to be exposed to concentration  $C_1$  in a day.

#### NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of the Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, for an Act to provide:

1. Where,

- (i) an application is made under the *Ontario Heritage Act* to demolish or remove a building or structure on a property designated under Part IV of that Act and no building permit has been issued to erect a new building on the site of the building or structure sought to be demolished or removed; or
- (ii) an application is made under the *Ontario Heritage Act* to demolish or remove any building or structure in a heritage conservation district designated under Part V of that Act, and no building permit has been issued to erect a new building on the site of the building or structure sought to be demolished or removed,

council may refuse the application and, notwithstanding the provisions of sections 34, 42 and 43 and subsection 44(2) of the *Ontario Heritage Act*, prohibit work from being done to demolish or remove the building until a building permit has been obtained to erect a new building on the site of the building or structure sought to be demolished or removed and 180 days have elapsed from the date of the decision of council to refuse the application.

The proposed legislation will further provide that if, prior to its coming into force, council has refused an application made under the *Ontario*

*Heritage Act* to demolish or remove a building or structure on a property designated under Part IV of the *Ontario Heritage Act* and has prohibited, for a period of 180 days from the date of its decision in accordance with clause 34(2)(b) of that Act, the owner of the property from demolishing or removing the building or structure or doing, causing or permitting any work to be done in the demolition or removal of the building or structure, the owner of the property shall not after the proposed legislation comes into force, demolish or remove the building or structure or do, cause or permit any work or any further work to be done in the demolition or removal of the building or structure unless the owner has obtained a building permit to erect a new building on the site of the building or structure sought to be demolished or removed and 180 days have elapsed from the date of the refusal by the council of the application to demolish or remove the building or structure.

The proposed legislation will also provide that, if, prior to its coming into force, council has refused an application made under the *Ontario Heritage Act* to demolish a building or structure in a heritage conservation district designated under Part V of the Act and prohibited the demolition or removal of the building or structure, no person shall, after the proposed legislation comes into force, demolish or remove the building or structure or do or cause any work or any further work to be done in the demolition or removal of the building or structure unless such person has obtained a building permit to erect a new building on the site of the building or structure sought to be demolished and 180 days have elapsed from the date of the refusal of the application by the council.

There is a right of appeal to the Ontario Municipal Board from council's refusal of an application.

The proposed legislation further provides that where

- (i) a building permit has been issued to erect a new building on the site of the building or structure designated under Parts IV or V of the *Ontario Heritage Act* and the council, under the provisions of subsections 34(2) or 43(2) of that Act, subsequently refuses an application made under subsection 34(1) or section 43 of that Act, or
- (ii) council under the proposed legislation, refuses an application to demolish or remove a building or structure designated under Parts IV or V of the *Ontario Heritage Act*, and a building permit is subsequently issued to erect a new building on the site thereof,

and the existing building or structure is demolished or removed, council may if the new building has not been substantially completed within two years of the commencement of the demolition or removal of the demolished building or structure, direct the Clerk to enter on the collector's roll, to be collected in like manner as municipal taxes, such sum, not to exceed \$1,000,000.00, as council may direct and the sum so entered shall until pay-

ment thereof be a lien or charge upon the land upon which the demolished building or structure was situate. A certificate noting the lien shall be registered against the land. The lien may be discharged upon payment of the said sum and thereupon a certificate discharging the lien shall be registered.

Provision will also be made for registering in the appropriate Land Registry Office any decision of the council refusing an application made under subsection 34 (1) or section 43 of the *Ontario Heritage Act* and in addition thereto the section of the proposed legislation sets out the potential consequences of such refusal.

The proposed legislation also provides for penalties for knowingly furnishing false information in respect of an application made thereunder, for failing to comply with an order, direction or other requirement made thereunder, or demolishing or removing a structure contrary to the legislation, such fine to be no more than \$10,000.00 or to imprisonment for a term of not more than one year, provided that if a corporation is convicted of such offence, the maximum penalty will be \$50,000.00. The proposed legislation will also provide that no prosecution for an offence thereunder shall be instituted except with the consent of the Minister of Citizenship and Culture.

2. That certain lands in the City of Toronto at 800 Fleet Street, which lands are bounded on the north by the Frederick C. Gardiner Expressway lands, on the south by Fleet Street, on the west by Strachan Avenue and on the east by the west limit of Garrison Road, may be leased for parking purposes. The lands were acquired by the City in 1909, and the *City of Toronto Act*, 1903 contains a restriction that such lands may be used by the City only for park or industrial purposes. The purpose of the proposed legislation is to enable the City to lease such lands, free and clear of the said restriction, to any person for parking purposes on such terms and conditions as may be agreed upon until such lands are required for parks purposes.

3. That on the 30th day of November, 1986, the Board of Health for the City of Toronto Health Unit will be dissolved and the Corporation of the City of Toronto shall stand in the place and stead of the Board of Health so dissolved in respect to agreements entered into, orders made or other matters commenced by the Board or proceedings instituted against the Board, and to further provide that the City, which would be deemed to be a Board of Health established under the *Health Protection and Promotion Act*, 1983, shall stand in the place of and have all the powers and rights and be subject to all the duties conferred or imposed on a board of health by that Act. The proposed Act will also provide that the functions which would have, prior to its passing, been performed by the board of health or the medical officer of health or the public health inspector of a board of health shall be performed by the City or the medical officer of health of the City or health inspector of the City respectively.

The proposed legislation will further provide for the continuation of the City of Toronto Health Unit and for the continuation in office of the medical officer of health and the associate medical officers of health and in respect to the appointment of those officers and the public health inspectors and public health nurses employed by the City and the powers, rights, privileges and duties of such employees.

4. That the special legislation obtained by the City in 1975 (section 5 of the *City of Toronto Act*, 1975 (No. 2) being chapter 117) as amended in 1981 (section 3 of the *City of Toronto Act*, 1981 being chapter 103) respecting assisted housing and assisted housing programs be amended so as

- (i) to change all references to "assisted housing" or "assisted housing program" contained in such legislation to "social housing" or "social housing program" respectively;
- (ii) to provide a new definition for social housing which, if the proposed legislation is enacted will be
  - (a) a program which in the opinion of council is designed to provide housing accommodation primarily for persons with low to moderate incomes at a charge not exceeding the greater of the amount required to finance, operate and maintain the accommodation without profit or the amount required to be charged for such accommodation under the terms of an agreement where one of the parties is the Provincial or Federal Government or an agency thereof and such accommodation is entirely owned by or leased to and operated by one or more non-profit co-operative housing corporations or bona fide non-profit corporations, or
  - (b) a program which provides housing accommodation owned and operated by or on behalf of the City of Toronto Non-Profit Housing Corporation.
- (iii) to provide that in any zoning by-law passed under section 34 of the *Planning Act*, the Council may, in addition to providing the residential densities under that section, provide one or more residential densities which would be applicable to the land if the owner thereof and the operator of the housing accommodation agrees with the City to provide all or such portion, as is specified in the by-law, of the housing accommodation for the purpose of a social housing program and the City may require the owner, and the operator, to enter into agreements respecting the provision of such social housing;
- (iv) to provide that Council may, in a by-law which provides for a different residential density where there is an agreement to provide social housing, give exemptions or reductions, or both, from zoning standards and provisions otherwise applicable to similar forms of hous-

ing accommodation which are not part of a social housing program.

The proposed legislation will also provide that Council is not required to pass any by-law permitting a different residential density where social housing is provided, even if the proposal complies with the definition of social housing. The City will also be permitted to enter into social housing agreements where projects comply with the definition of social housing program but do not require the additional density.

The proposed legislation will also deem the phrases "assisted housing", "assisted housing program" and "owner" where found in by-laws passed before the proposed legislation comes into force will be references to "social housing", "social housing program" and "operator of the housing accommodation if different from the owner" respectively and that any by-law passed under the existing legislation (that is the 1975 legislation as amended in 1981) or any agreement entered into under the said existing legislation will continue in full force and effect until amended, revoked or repealed.

5. That Council may pass by-laws designating on public highways under the jurisdiction of the City zones for the parking of buses, as defined in the proposed legislation and further may pass by-laws regulating the use of zones so designated and for providing the time during which such designated zones will operate and for prohibiting the parking, stopping or standing of any vehicle other than a bus within such designated zones.

6. That Council may pass by-laws to allow holders of a permit issued under the City's existing permit parking by-law to park the motor vehicle in respect of which the permit is issued on highways or parts of highways designated under the by-law without depositing fees in any parking meter erected on such highway or part of highway.

7. That Council may pass by-laws for prohibiting an owner of a Hazard Building, as defined, from permitting or allowing such building to be vacant unless it is maintained to and complies with standards established by the Council and for prohibiting an owner of a Non-Hazard building, as defined, from permitting or allowing such building to be vacant for more than 180 consecutive days unless it is maintained to and complies with standards established by the Council. For purposes of the proposed legislation, "standards" mean such standards as in the opinion of the Council are appropriate to protect against entry to the building or to detect and signal the presence of a person in such building.

The proposed legislation will permit the City, at the expense of the owner of such building, to do any work required to bring a vacant building into compliance with the standards established by Council where the owner permits a Hazard Building to be vacant without complying with such standards or permits a Non-Hazard Building to be vacant for more than 180 days without complying

with such standards and the City shall have a lien for any amount expended in so doing, plus a fee covering reasonable administrative costs, together with interest at a rate fixed by Council. It is also provided that the total amount set out in a certificate of the Clerk shall be final and be added to the collector's roll and collected in the same manner as real property taxes over a period of not more than 5 years.

The proposed legislation will provide rights of entry for inspectors, officers, employees, agents, or servants of the City at all reasonable times for the purposes set out therein, but does not permit entry to a private residence actually being used as a dwelling without the consent of the occupier. The proposed legislation further provides for the obtaining of a warrant, without notice to the owner of the building, where the owner thereof cannot be located or if the agent, officer or servant of the owner of the building denies entry to an inspector, officer, employee, agent or servant of the City, or instructs such person to leave the building or obstructs such person in the carrying out of the Act or refuses to comply with a request for production of anything required for the purpose of an inventory, test or inquiry, such warrant permitting entry and access to the building including the right to make inventories, investigations, tests or inquiries and the doing of the work required to bring the building up to standards where authorized by the proposed legislation.

8. That the Council may pass by-laws:

- (i) requiring every employer of a business activity defined in the By-law to disclose annually to the Medical Officer or Health, certain information respecting the identity, use and quantity of each substance designated hazardous by the By-law which is present in or brought to the workplace and defining what is meant by the expression "small quantity" and exempting from the disclosure requirements of the By-law a "small quantity" of designated hazardous substances, and "hazardous consumer goods" as defined;
- (ii) requiring every employer of a defined business activity to advise the Medical Officer of Health, of any change in the nature or address of the business activity or of the failure to receive from the Medical Officer of Health any request for information respecting designated hazardous substances in the workplace or the fact that there are no designated hazardous substances in the workplace of such employer;
- (iii) appointing public health inspectors to enforce the By-law; and
- (iv) providing that any person who contravenes the By-law is guilty of an offence punishable on conviction by a fine of up to \$2,000.00 and further, providing for the imposition of a fine of up to \$100.00 per day of an employer convicted of the offence of failing to disclose

information specified in the By-law for each day the offence continues.

The proposed legislation will provide that Council may establish a Right-to-Know Arbitration Tribunal which shall hear and determine all claims submitted to it by an employer of a defined business activity for confidentiality in respect of the identity of a designated hazardous substance in the workplace and will set out the procedure for making such claim and what the Tribunal is required to consider in making a decision in respect thereto. Hearings before the Tribunal will not be open to the public.

A confidentiality claim approved by the Tribunal shall be issued a confidentiality registration number by which the identity of such designated hazardous substance will be disclosed under the Right-to-Know By-law, but where the Tribunal dismisses a confidentiality claim the identity of the hazardous substance must be disclosed by its name.

The proposed legislation will also provide for the composition of the Tribunal, the appointment and remuneration of its members and will set out the duties, procedures, quorum requirements and staffing of such Tribunal.

There will be the right of appeal to a judge of the District Court where the tribunal dismisses a confidentiality claim. Such appeals will not be open to the public.

It will also be provided that every person may obtain from the Medical Officer of Health information respecting designated hazardous substances in the workplace disclosed to the Medical Officer of Health by employers of defined business activities or otherwise available to or in the possession of the Medical Officer of Health unless such information pertains to:

- (a) the identity of a designated hazardous substance in respect of which a confidentiality claim has been filed by an employer or approved by the Right-to-Know Arbitration Tribunal;
- (b) the proceedings before and confidentiality claims filed with the Tribunal; or
- (c) any inspection report or the results of any examination or test made by a public health inspector for the purpose of enforcing the the Right-to-Know By-law.

The Fire Chief may obtain the name of a designated hazardous substance in respect of which a confidentiality registration number has issued but shall not disclose such name to any person except as may be necessary to protect life or property endangered by a fire. A physician licensed to practise in Ontario may under certain circumstances set out in the proposed legislation obtain the name of a designated hazardous substance in respect of which a confidentiality registration number has issued but such physician shall not disclose the name of such designated hazardous substance to any person except as may be necessary to treat the

patient named in the physician's statement submitted to the Right-to-Know Arbitration Tribunal. In cases of medical emergency, a physician may obtain from the Medical Officer of Health the name of a designated hazardous substance in respect of which a confidentiality registration number has issued but shall not disclose such name to any person except as may be necessary to treat the medical emergency.

The proposed legislation will also provide rights of entry and investigation for inspectors appointed to enforce the By-law and for the obtaining, without notice, of a warrant where entry is denied.

Members of the Right-to-Know Arbitration Tribunal, persons assisting the Tribunal as well as public health inspectors will, under the proposed legislation, be protected from legal proceedings against them for any actions taken by them or omissions on their part done in good faith in order to perform their duties thereunder.

This application will be considered by a standing Committee of the Legislative Assembly. Any person who has an interest in the application and who wishes to make submissions for, or against the application, to the Standing Committee should notify, in writing, the Clerk of the Legislative Assembly, Queen's Park, Toronto, Ontario M7A 1A2.
